

A **UNISON** RISK ADVISORS Company

Vaccine & Testing Tracking Solution

Having a comprehensive system for tracking vaccination and testing efforts is critical for all businesses, especially when it comes to COVID-19. The SISCO Vaccine & Testing Tracking Solution is available to aid in both establishing and tracking your organization's policies and procedures.

Track your organization's:

**COVID-19
Vaccinations**

Booster Shots

**Weekly Testing
Compliance**

& More

Our Vaccine & Testing Tracking Solution combines the unparalleled analytics expertise and service approach of the SISCO team with top-of-the-line, customizable technology. This solution helps to protect your organization's population and keep accurate vaccination records, including, vaccine manufacturer, vaccination dates, administrator, proof of vaccination documentation and all necessary waiver and testing information.

Service to Help You Move Forward

Establishing and executing a vaccination and testing program can be a daunting task. Our team of risk consultants can help you establish a program tailored to your needs. After that, we can work with you to guide your vaccination tracking and analytics to meet regulatory requirements and implement risk control solutions targeted to your unique population.

Risk Consulting: Developing Policies & Procedures

As regulations regarding mandated vaccinations and testing change, SISCO's risk consulting team can provide assistance in developing a policy.

Professional Support: Obtaining Your Data

Our team can work with you to identify valuable data points worth measuring and also assist in transferring manual data. With this professional support, your vaccination/testing efforts will be up and running in no time.

Custom Reporting: Understanding Your Data

Once data is entered into the system, you will gain access to run reports from SISCO's vaccination library, create custom reports, and easily pull lists of stakeholder populations by vaccination and testing status with the click of a button. Using your organizational structure, we can customize dashboards by your unique data points and schedule reports for delivery to your key stakeholders.

Developing Solutions: Leveraging your Data

Through careful analysis of your data, challenges and goals, our team helps to customize a plan of action and training regiments targeted toward your specific organizational needs.

Establishing Vaccine & Testing Policies

Partner with a risk consulting expert to help:

-  Create and customize your vaccination policies & procedures.
-  Support your training efforts (develop &/or deliver employee training).
-  Revise your business continuity plans to include pandemic risk & response.

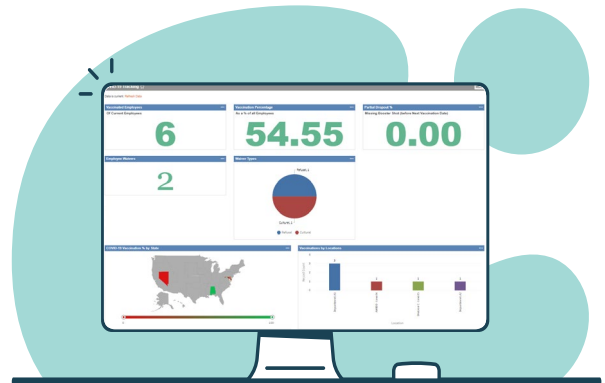

Example policies & procedures include:

-  Policy for vaccination of key populations.
-  Process for determining employees' vaccination status.
-  Procedures for tracking weekly test results.
-  Policy requiring weekly testing and mandatory face coverings for unvaccinated employees.
-  Procedure to request accommodation due to medical conditions and religious beliefs.
-  Policy to address employees unwilling to comply with the vaccination and/or weekly testing and face covering requirements.

Customizable Dashboards & Reports

The SISCO Vaccine & Testing Tracking Solution allows you to track:

- ✓ Number and list of population vaccinated.
- ✓ Number of population opting out of vaccination.
- ✓ Required weekly testing dates and results.
- ✓ Percentage of population vaccinated by department, location, state.
- ✓ Percentage of population missing dosage/booster.

- ✓ Upcoming booster shots due.
- ✓ Vaccinations by manufacturer.
- ✓ Adverse reactions and related workers' compensation claim number (for employee vaccinations).
