

OnTrack | A Comprehensive Risk Management, Employee Safety & Compliance Platform

Protect your company with OnTrack, a comprehensive web-based suite of safety and risk management tools and resources designed to support your organization's risk prevention strategy. OnTrack helps you to design and implement custom risk mitigation programs to meet your organization's specific needs across all departments and locations while promoting employee safety.

Improve Efficiency with Comprehensive & Cost-Effective Solutions

OnTrack provides organizations with the ability to proactively manage risk exposures and develop effective workplace safety programs to reduce claims, losses and associated costs. Industry leading safety and risk management content is provided through the ease of a web-based application, eliminating the need for multiple programs. The platform combines risk management and human resources. The OnTrack Library enhances your safety program with a multitude of bilingual safety and risk management resources, including policies, procedures, posters and training materials. The HR Library provides access to state and federal regulations as well as human resources tools and applications.

Applications & Functions

Training Track

Record all employee trainings including assigning online trainings that are automatically tracked.

Incident Track

Keep an online claims diary of any accident, including OSHA Recordables to create the OSHA 300 Log.

COI Track

Manage all vendors or subcontractors certificates of insurance and automatically inform them of upcoming expiration or noncompliance.

SDS Track

Manage the SDS inventory for all locations and print compliant labels from any computer for secondary containers.

Audit Track

Create, assign, and manage safety audits, compliance forms, and walkthrough checklists throughout your organization.

Resources

HR Library

Full-service resource to support all HR functions, stay on top of compliance, and access necessary forms to improve efficiency.

Risk Management & Training Library

Full-service resource to stay on top of risk management needs.
