

RISK & SAFETY CONSULTING FOR CONSTRUCTION

Customized safety solutions for your unique exposures.

We understand the challenges the construction industry faces in providing effective employee safety measures and navigating the complexity of compliance requirements.

No matter your role, we can help you protect your employees, ensure the success of projects, and protect your assets and reputation. Our risk consultants are equipped with a specific understanding of the risk issues in the construction industry – and more importantly, the solutions to mitigate those risks.

Our consultants are available to help:

Evaluate

safety plans, policies & procedures

Engage

key stakeholders

Drive

a culture of safety

Address

compliance & safety gaps

Achieve

safety goals

Manage

loss drivers

Risk & Safety Solutions

Specific improvements for safety concerns will vary depending upon your organization and exposures. RCM&D risk control can help with:

- » Safety program & policy development
- » Gap assessments
- » Hazard identification
- » Job site surveys & risk assessments
- » Loss analysis & trending
- » Activity hazard analyses
- » Regulatory compliance (OSHA, DOT, etc.)
- » Employee training
- » Pre-job safety planning
