

# RISK CONSULTING SOLUTIONS FOOD MANUFACTURING

SISCO's Risk Consulting Practice provides strategic risk management solutions to meet the dynamic needs of food manufacturers in an increasingly complex market.

Today's landscape presents challenges for food manufacturers both new and old – and failure to prepare for these changes can be devastating. Our knowledgeable consultants partner with you to tackle traditional and emerging issues.

## Innovative & Adaptive Solutions

At SISCO, we use our proprietary research and analytical tools to learn the specifics of your organization and develop an in-depth understanding of your unique needs and objectives. By working as a collaborative partner, our consultants offer innovative and adaptable solutions, creating a multi-year strategy to achieve optimal outcomes.

## Health/Safety Strategic Planning

We can help your organization develop and implement a comprehensive plan to address your unique health and safety risks.

Health and safety strategic planning incorporates developing a comprehensive plan. Identifying actions to promote and improve your current EHS program. It encompasses the identification, assessment, and mitigation of risks, as well as the establishment of goals, and strategies to optimize health and safety performance within an organization.

### **Performance & Compliance Audits**

SISCO's auditing process goes beyond simply listing areas for improvement; we offer thorough inspections and comprehensive reports with real solutions. Our services include one or a combinations of services remote program and documentation review, on-site interviews and observations. These audits aim to ensure that businesses meet regulatory requirements, industry best practices, and internal policies to maintain operational efficiency and mitigate risks.

### **On-Site Safety Support**

We partner with you EHS staff to supplement their activities and support their team. Whether you are unexpectedly short-staffed, or need a long term partner, our consultants are trained to handle any situation and can offer support when needed.

### **Risk Assessments**

Our Consultants will evaluate your loss trends and high priority exposures through a formal risk assessment process to help you proactively identify risk, focus resources and establish leading indicators focused on risk reduction.

### **Slip/Fall Prevention**

Slip and fall injuries are the most common workplace injuries. Using a slip meter we will provide you with quantifiable measurements and heat mapping to prioritize results across your plant and you can focus your resources to systematically address slip and fall risks.

### **Guarding Assessments**

Our guarding assessments measure your current protocols' effectiveness and provide a roadmap to where vulnerabilities may lie.

### **Lockout**

Our consultants are familiar with food manufacturing equipment and processes and will assist in the development or audit of your procedures and training.

### **OSHA Recordkeeping**

Our Risk consultants are up to date with Occupational Safety and Health Administration (OSHA) regulations which is essential for businesses to ensure a safe and compliant work environment. OSHA inspections can happen at any time. Our OSHA recordkeeping services can ensure you're ready in the event of an unexpected inspection with accurate records.
