

RISK CONSULTING SOLUTIONS MUNICIPALITY INDUSTRY

Are you equipped to navigate the complex risks that impact municipality operations? With numerous departments and broad exposures, municipalities require specialized attention to effectively manage their risks.

From administration and economic development to emergency services and public works, each facet of your organization presents distinct vulnerabilities.

SISCO Risk Consulting: Tailored Solutions for Municipalities

SISCO Risk Consultants understand the intricate landscape of municipal risk management. With our wealth of experience and expertise, we empower municipalities to proactively address these risks and safeguard their operations through:

Emergency Management Planning & Tabletop Exercises

We help strategically plan and execute emergency response procedures through realistic simulations and exercises.

Enterprise Risk Management

We can help to establish a holistic approach to identify, assess and mitigate risks across your organization.

Business Continuity Planning

Ensures seamless operations and minimize disruptions in the face of unforeseen events.

Security Assessments

Evaluation and enhancement of your property's security procedures and features to safeguard against threats.

Claim Advocacy

We advocate for your interests during insurance claims and navigate complex processes.

Water Intrusion Assessments & Mitigation Planning

We identify vulnerabilities related to water intrusion and develop comprehensive mitigation strategies.

Workplace Violence Prevention Assessments

Proactively address workplace violence risks with comprehensive assessments and employee training.

Emergency Planning Services

Develop and test life safety assessments, critical incident response plans and disaster recovery strategies.

Ergonomic Assessments

Ensure employee well-being and productivity with assessments to optimize working postures and workstation setup.

OSHA-based Training

We equip your team with the necessary knowledge and skills to address various types of risks in compliance with OSHA standards.

Operational Liability Risk Assessments

We identify potential liability risks within your operations and implement preventive measures.

Slip & Fall Assessments

A comprehensive analysis of interior and exterior areas, including tribometry analysis, to prevent slip and fall incidents.

Property Protection Systems Assessment

We assess the effectiveness of fire protection systems, including sprinklers, fire alarms, and kitchen hood extinguishing systems.

Driver Safety Policy Development

Robust policies and procedures for ancillary vehicle operations to ensure driver safety.

Behavior-Based Safety Observations/ Assessments/Training

We help your organization establish a culture of safety by identifying and addressing behavioral factors that impact workplace safety.
