

A **UNISON** RISK ADVISORS Company

SURETY

Strategy & Service Beyond Surety Placement

Expertise, Experience & Value

Our Surety Division includes insurance professionals specializing in the construction industry, surety, claims and underwriting operations and have extensive backgrounds in certified public accounting and engineering. A key advantage for you and your partnerships, including subcontractors and suppliers, is our ability to access more than 25 large, small and specialty markets to bring you optimal programs, both domestically and internationally.

Peace of Mind with Service, Technology & Stewardship

The Surety team delivers efficient, timely and cost-effective solutions to ensure proper bonds and adequate protections are issued with each program. Clients are provided with a dedicated, centralized three person team to provide tailored service and management for your programs, bonds and billing. We are responsive to you and your unique situations and deliver a streamlined experience.

Utilizing a leading web-based surety bond processing and online management system, SurePath, clients have access to an easy to use interface to request bonds, report bid results, track outstanding liability, submit eBid Bond verification, correspond with our team and carriers as well as securely store documents and confidential information.

Stewardship meetings are arranged each quarter bringing together all teams to review recent and new projects, discuss marketplace outlook and trends, and surety capacity. Throughout the year, RCM&D presents a variety of networking and learning opportunities.

Consultative Partnerships

The Surety team provides a strategic consultative approach by providing comprehensive financial analysis, contract risk review and business planning to identify areas for improvement to ensure surety credit qualification and proper surety placement. Our team performs a thorough review of all bonds from subcontractors to ensure authenticity as well as status for AM Best Rating, T listing, D&B and Transamerica credit report. Additionally, we offer our clients and partners with educational training to learn best practices and to network with the people you need to know. We don't just sit behind the desk, we visit project sites to meet the field teams and learn your work and building style to fully understand all aspects of your specific project.
